Darrell Yoder
Religion

$12,062

Jillian Foster
Psychology

$20,043

YOU DECIDE.

They did earn that with Varsity during their **1st SUMMER.**
They developed their **Communication Skills** and they love a Challenge.
They worked lots of hours and developed independence away from home.
They got **Experience** and **Training** that looks GREAT on their **Resume**.
They did **Impact** hundreds of families with the **Bible In Stories**.

- **Chris Howard (Major: Finance, Business Owner)**

  *"If Varsity extends a position to you for the summer, **you will be challenged** more than you probably have ever been before, and you will learn self-determination, leadership skills, communication skills, how to set and attain goals, how to deal with different personality types, overcoming objections, how to run a business, cash flow, profit and loss, marketing, recruiting, how to train people, **how to sell yourself and your ideas** and on top of that you **make some great friends** during the summer while traveling to a different part of the country!*

  *The Training and Experience one gains from **Varsity is priceless!!** I definitely recommend to any highly motivated student who wants to do great things with their life to **put yourself to the test** and take the Varsity challenge!"*
