

We're Changing Lives... One Degree at a Time.

January 27, 2004

Dear Students,

In working with the Varsity Internship Program, I gained valuable training that helped to prepare me for my future. I not only had the opportunity to learn business skills, but the program helped me to put Biblical principles into practice. It was a catalyst to grow in my faith in the areas of commitment, trust in God's provision, honor and so much more. It challenged me not to be tossed about regarding life's unpredictable circumstances and to keep my eyes on the goal.

In addition, the program helped me to become a more confident person. Upon finishing the internship, I was able to interview and obtain a teaching position that same week. Thereafter, I went on to earn a Masters degree at Liberty University while employed as a Resident Director. During my second year as an RD, I was promoted to a Dean's position in the Dean of Women's Office.

I am truly thankful for being given the chance to work for Varsity. I believe it helped me to become a better person. To this day, I put into practice the principles I learned during that summer. It has given me the stick-to-itiveness and courage to reach for my dreams!

Because of Christ,

Michelle Matthews
Dean of Women
