

To Whom It May Concern:

The Varsity Company had been an asset in Rob Brumbelow, my son's life. I have seen him mature to a more responsible young man. This internship had intensified his desire to achieve goals.

Rob was never a quitter, but Varsity taught him to be persistent by selling to people he had previously never met.

The selling technique Rod has learned has given him a more positive outlook on life. It made him want to be around other positive people.

Varsity has made him be more organized. When you apply this to his study habits, he has achieved the best GPA he has ever had.

I'd recommend the Varsity Program to any student that desires success in life.

Pat Brumbelow
