Dave Ramsey – Author, Talk Show Host, & Personal Finance Expert

“It is with great pleasure that I recommend the Varsity Internship Program. In today’s job market, it is so important for students to have *practical business experience* upon graduation. This distinguished program enables students to *run their own business, market their product, and enter their career debt free.*”

Ronald Reagan – United States President

“It was an inspiration to meet them and to find *effective proof of our free enterprise system* and its ability to do the job. Even more inspiring was to find the product being sold — the Bible and the spiritual quality that infused the entire undertaking. I hope your program will long continue and I thank you for it.”
