Jillian Foster
Psychology

\$20,043

YOU DECIDE.

They did earn that with Varsity during their **1st SUMMER.**
They developed their **Communication Skills** and they love a Challenge.
They worked lots of hours and developed independence away from home.
They got **Experience** and **Training** that looks GREAT on their **Resume.**
They did **Impact** hundreds of families with the **Bible In Stories.**

• **Chris Howard** (Major: Finance, Business Owner)

"If Varsity extends a position to you for the summer, you will be challenged more than you probably have ever been before, and you will learn self-determination, leadership skills, communication skills, how to set and attain goals, how to deal with different personality types, overcoming objections, how to run a business, cash flow, profit and loss, marketing, recruiting, how to train people, how to sell yourself and your ideas and on top of that you make some great friends during the summer while traveling to a different part of the country!"

The Training and Experience one gains from Varsity is priceless!! I definitely recommend to any highly motivated student who wants to do great things with their life to put yourself to the test and take the Varsity challenge!"
